

PROFESSIONAL DEVELOPMENT AND RESEARCH PLAN (SIX PAGE MAXIMUM)

PLEASE REFER TO GUIDE FOR DETAILED INFORMATION REGARDING FILLING OUT THIS FORM

The professional development and research plan is a critical part of the Mentoring Grant application. Here we highlight how mentors and mentees can connect their career development goals to a set of professional development activities that they will pursue during the two year grant period.

Restate the goals for the mentor and mentee from the mentor and junior researcher statements

Click or tap here to enter text.

Mentors, summarize the two-year plan to increase your capacity to effectively mentor junior researchers of color and to achieve the goals identified above. Please note that we expect mentors to pursue specific professional activities during the grant period to expand their expertise

Click or tap here to enter text.

Mentors should use this section to describe the activities they will pursue. Activities might include participating in formal mentor training programs, attending conferences that focus on mentoring, cultivating a network of peers to support mentoring, routinizing mentoring practices, or institutionalizing mentoring culture within a department, for example. Activities should support the learning goals identified in the mentoring statement as well as the grant's goals of mentoring across difference, developing a stronger awareness of the issues researchers of color face, and supporting the proposed mentee's two-year plan

Mentees, summarize the two year plan to develop your research skills and scholarly networks. Please describe the professional development activities you will pursue to achieve the goals identified above and expand your expertise

Click or tap here to enter text.

Mentees should use this section to describe the activities they will pursue. Activities should support the learning goals identified earlier in the application and might include methodological training, meeting doctoral program milestones, developing a support network, or strengthening a publication pipeline for example.

Describe the research questions, methods, and analyses that your dyad will pursue during the two year period

Click or tap here to enter text.

Describe how the research advances the mentor and mentee two year plans

Click or tap here to enter text.
